The primary objective of Training & Placement Cell (T&P) is to provide employment opportunities and professional training to the students. At GST, the T&P cell strives to collaborate with industries to provide campus placements and internships to all the students. The institute also has an Industry Institute Interaction cell to collaborate with industry for consultancy projects where the students get to work on live projects and on problem statements provided by the industry. The Training and Placement Cell of the Institute centrally handles campus placement of the graduating students of the University. The Cell provides complete support to the visiting companies at every stage of placement process. The Cell is well equipped with ample infrastructure for the companies visiting the campus.

The cell also regularly conducts and organized career development sessions by industry professionals to create awareness among students regarding available career options and help them in identifying their career objectives and guide them in developing skills and job-search strategies required to achieve their career objectives. Regular feedbacks from the industry are taken to bridge the industry academia gap and to provide inputs for curriculum enrichment.
