Event Description

A seminar was arranged for CE and IT first year students on “Career in JAVA” on 29 Jan 2019. The resource person was **Mr. Rajiv Gupta (Sun certified Personal & Senior software developer)**. He briefed the students about the current need, market trends and career opportunities in JAVA. He also detailed the students about mini projects and he welcomed the students for any project assistance to their company free of cost. He also emphasized on how to present them in interview. This will help the students to prepare for the campus selection in the long run.

A feedback of session was taken at the end and more than 90% students felt it was beneficial for them.
