Event Description

Student Council of SIES GST organized an Independence Day Celebration programme on Thursday , 15th August 2019 between 8:00 am to 11:30 am at SIES Graduate School of Technology, Nerul.

The event started on an auspicious note by our Principal Incharge Dr. Atul Kemkar, hoisting of our national flag on this glorious day. Followed by the assembly singing our National Anthem proudly. He then addressed the assembly with some words of wisdom and gratitude towards the nation. Everyone was then requested to proceed to the GST Auditorium where the rest of the programme would take place.

The program then began shortly, at first our hosts throwing light on our country's struggles while gaining independence and the importance and meaning of the word itself. The program then took it's course towards a mesmerizing performance by AAROHA. This was followed by a special video made by the MEDIA TEAM which glorified the true meaning of freedom and people in our country feeling safe. Then we had a power packed performance by the NSS unit of our college. They moved everyone with their passionate performances, be it singing, dancing or acting everything oozed enthusiasm and emotions. Some snacks and refreshments were offered to the audience during the performance. To end the program in high spirits we had our very own Mrunal Sarang (TE-Mech) deliver a patriotic speech, who spoke valiantly and spread awareness about national concerns and how one can contribute to the growth of our nation.

We then had our hosts expressing gratitude to the audience who graced the program with their presence and after a few closing statements we then came to the end of our celebration.
