Event Description

Webinar on “Enabling Technology Commercialization” was organized by AGNIi – Accelerating Growth Of New India’s Innovations on 6th August 2019 at 3:00 pm. By Professor K. Vijay Raghavan, Principal Scientific Adviser to The Government of India was the resource person.

Professor K. Vijay Raghavan started his session by giving information about how technology plays an important role to reduce poverty in India. He gave the example of various public and private organization who play an important role in this. He also informed the students about the changes in technology in last two decades and its impact on industry. He also spoke about various new technologies like Internet of Things (IOT), Cyber Security and Information Technology.

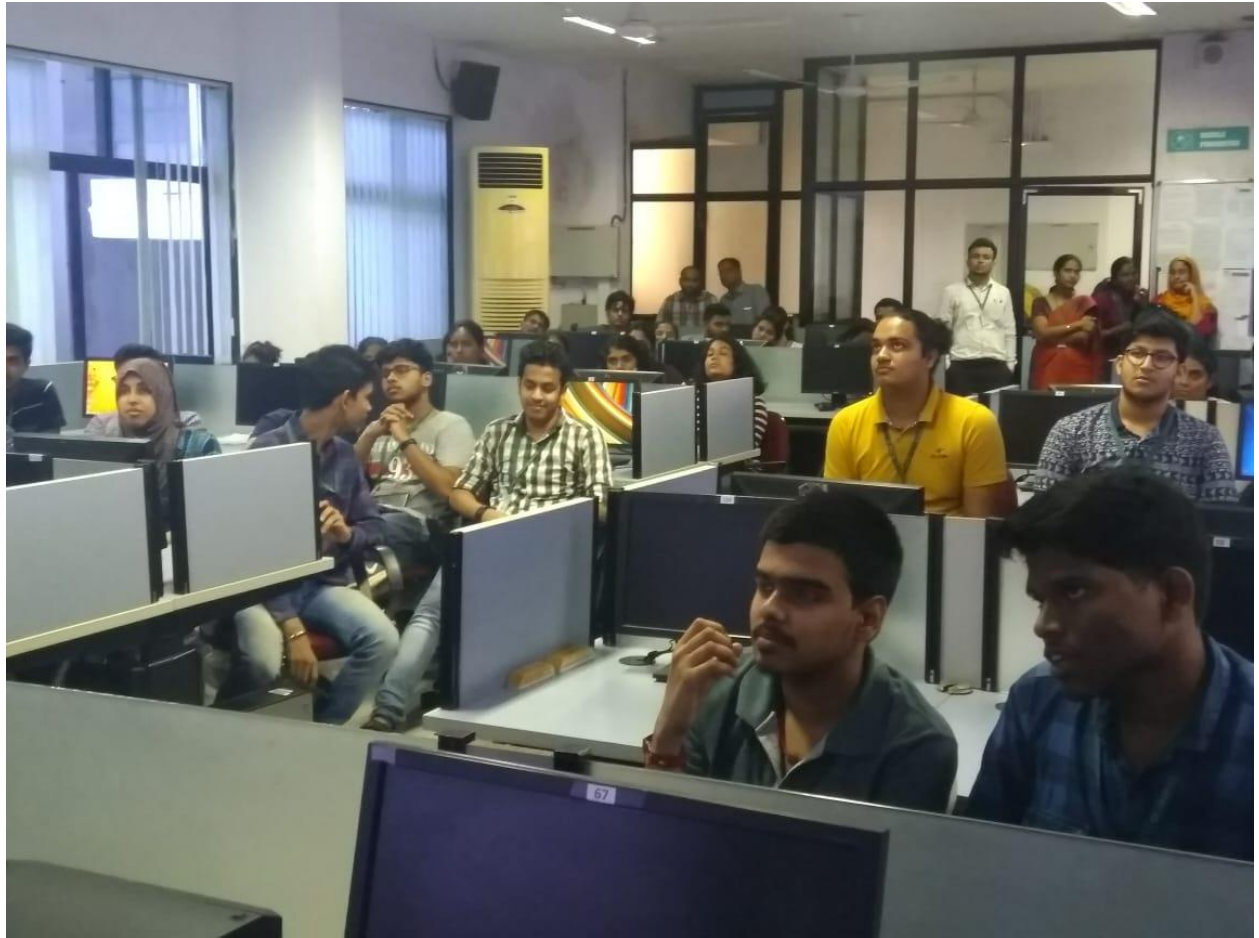

The session concluded with awareness and support facilities provided under STARTUP India initiative. The benefits like process facilitation, patent filing tax exemption, setting up business and so on were also discussed in detail.

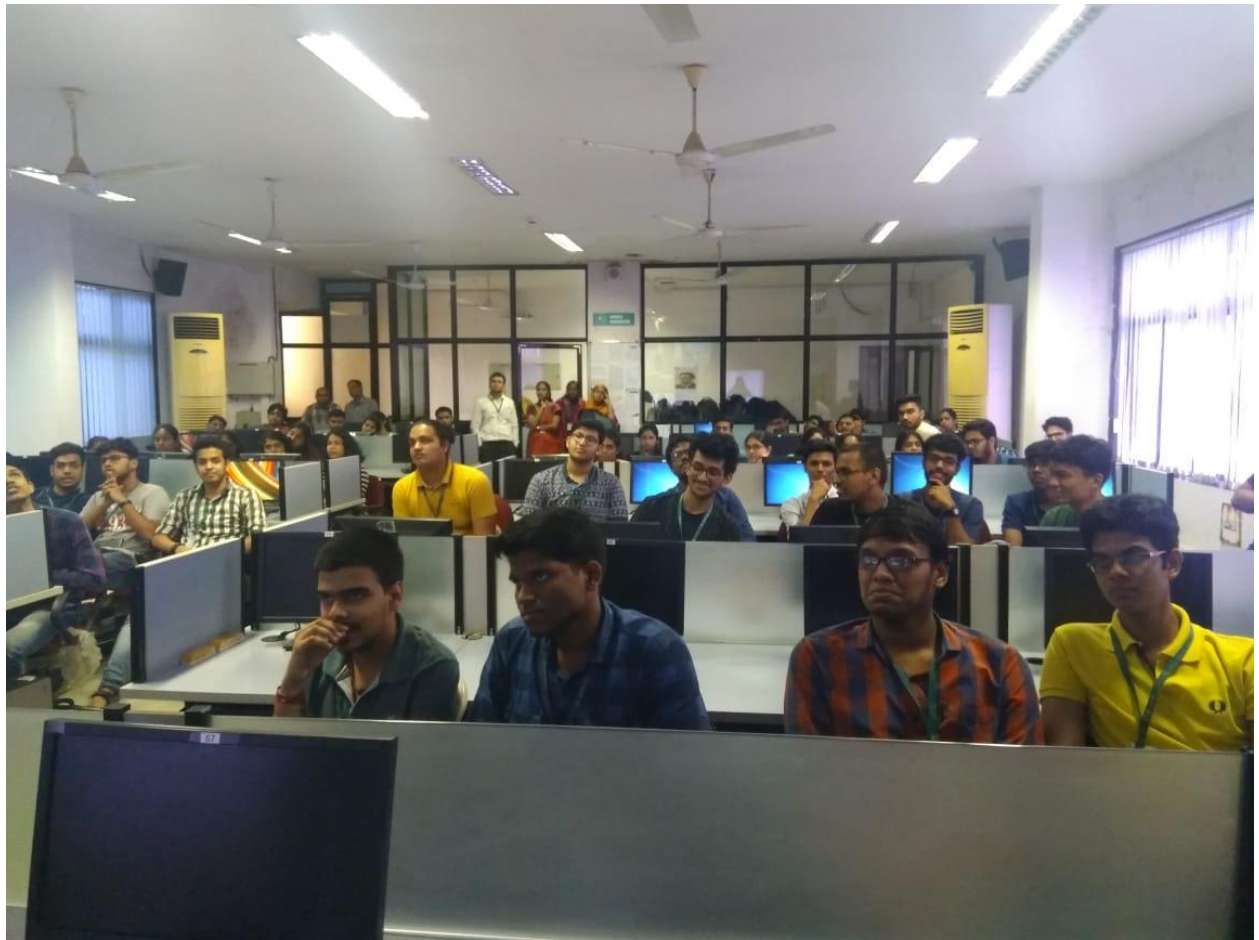

Session was interactive and students interacted by posting questions on twitter and facebook. Which was hosted by Ms. Pooja Monga member of AGNIi – Accelerating Growth Of New India’s Innovations team.

The overall response was overwhelming and was attended by faculty and final and second year students.
