List of SDP A.Y. 2021-22

- Blockchain Technology
- Structural Modelling and 3D Printing
- Natural language processing using python
- Advanced Antenna Design Using HFSS
- Workshop on Rpi
- Image Processing and Machine Learning using Python
- SDP on Networking Management and Security
- SDP on Full Stack Web Development

3. Feedback Analysis

Feedback Analysis
Additional Comments Provided by Students:

1. The session was really informative and the lecturer covered all the necessary concepts.
Structural Modelling and 3D Printing

<table>
<tr><td colspan="2">Event Description</td></tr>
<tr><td colspan="2">The event was a great success, as 16 students from both Printing and Packaging technology department and Mechanical Engineering were present for the workshop on one platform.

Students were benefited with the session by knowing methods to build an STL based 3D printer of their choice and troubleshoot various issues arising while printing the object. Robust situations that arise during the actual printing were experienced by the participants and hands-on training was provided during the session on day 6 and 7. The result of which was observed when students designed a product of their own using SolidWorks and 3D printed it on the printer with hands-on experience. There were assignments that were offered to students and solutions that were provided in case of any difficulty. Industry expert Mr. Chaphekar shared his experience on building 3D printers and challenges faced by the industry.</td></tr>
</table>

Mini project list:

1) Be safe - Personal medical Assistant
2) Find Covid Vaccine Slot(India) using Python
3) Automatic Text Summarization
4) Student Result Management System
5) Twitter Sentiment Analysis
6) Chatbots Across different platforms like WhatsApp, Telegram, Google Assistant, Fb Messenger, Websites, Slack
7) Sentiment Analysis on Real time Twitter Data

8) Covid Bot for Nearest Testing Centers, Plasma Donation and Receiver registration etc
9) Topic Modelling for different set of Documents to find out prominent topics
10) Toxic Comment Classification using Machine Learning / Deep Learning
